Totally change the way your buildings do business.

MC2 provides actionable insights to execute energy and operational strategies that solve business problems and maximize efficiencies. We work with you to build enterprise-wide solutions that connect your building's systems, gather data and insights through system integration. This gives you the tools to make business decisions that impact your bottom line.

Maximize Efficiency, Safety & Comfort.

Building Automation

- Facility Dashboards
- Energy Metering, Reporting & Tracking
- Energy Management & Continuous Commissioning
- Performance Contracting & Energy Services
- Design Build Energy Services
- HVAC Controls
- Lighting Systems
- Temperature Controls
- Fault Detection Diagnostics

Security + Notification

- Access Controls
- Video Surveillance
- Mass Notification Systems
- Intrusion Detection
- Digital Message Boards
- Fire & Life Safety
- Vape & Chemical Detection

Facilities Service

- Service & Maintenance Plans
- 24/7/365 Emergency Service
- Predictive Reporting & Building Analytics
- HVAC Conditioning
- Commissioning Services

Engineered Solutions

- Comprehensive Analysis
- Preliminary Energy & Utility Profiles
- Detailed Site Audits
- Transient Voltage Surge Suppression
- Power Factory Correction
- Uninterruptible Power Systems
